

DETAILS FOR POSTER PREPARATION

Date, time, and place of your presentation

Please, check your presentation coordinates in the link below:

<https://eventos.fgv.br/laciam-2023/sessions-posters>

Display

The Organizing Committee will provide **only tripods** for the posters to be hung. All presenting authors are invited to hang up their posters at the beginning of the day and remove them when the session finishes.

Format instructions and other details

Dimensions: A0 vertical format (width 841 mm, height 1.189 mm).

Printing: preferably, the poster should be printed in canvas or heavy duty paper; manual cut; finishing plotter with pole pockets (top and bottom). The pole pockets are when the banner is folded over on itself and sewn. Thus, you can insert a stick with a rope or cord through the pole pocket in order to suspend the poster on the tripod. See the pictures below for a better understanding.

Please, print your poster strictly following the details above to hang it in the tripod as the event will not provide supplies (e.g. tape, strings).

Posters must be printed prior to your arrival at the conference.

Posters in pdf in the conference website: We will include the posters in pdf format in the conference website for further visibility. If you want your poster to be posted on the conference website, please send the poster in pdf to laciam2023@fgv.br with the subject "Poster award candidacy" **not later than January 15th**.

Content information

Header: Provide the title, author(s) name(s), organization(s) logo(s) and/or other acknowledgements to give credit to those who have done the work.

LACIAM logotype: please insert the conference logotype available [here in color](#) and [here in black and white](#).

Organization: the objective is to present the information clearly and simply in a visually appealing way. You may use figures, tables, graphs and/or photographs where suitable. Keep the text brief and to the point.

Layout: use a large font size for your text, such as 24-point and arrange materials in columns rather than in rows to make your poster more reader-friendly. Choose colors that are easy on the eyes and don't use too many colors as it will make the poster look too busy.
